Terms and Conditions

Peoples Gas and North Shore Gas ("the Companies"), offer energy incentive programs to assist eligible residential, commercial and industrial customers. The programs are designed to assist customers in the implementation of projects that reduce electric and natural gas use. Prescriptive incentives reward eligible customers replacing less efficient equipment on a one-for-one basis with pre-defined, energy-saving technologies. Custom incentives are available for more complicated projects, or those that incorporate alternative technologies. Pre-approval is necessary for all Custom incentives, but not for Prescriptive incentives under \$5,000.

This agreement, upon approval, allows the applicant to participate as a Trade Ally in the Companies' Natural Gas Savings program. Only Trade Allies who have signed an agreement may participate in the program.

Terms and Conditions for Participation:

1. Applicant agrees to actively promote the Companies' Energy Efficiency programs described on individual program applications.
2. Applicant's participation will be in compliance with any published program guidelines.
3. The Companies may distribute applicant's name as a Trade Ally in the program.
4. Participation does not constitute an endorsement of the applicant by the Companies, and the applicant shall not represent to customers that the Companies' Energy Efficiency program or the Companies endorse its business. Applicant may not use the Companies' names or logos or the program name, Peoples Gas and North Shore Gas Natural Gas Savings Program, in any advertising or promotional literature or material of the applicant's business.
5. Applicant agrees to report any proposed customer project to the program.
6. Applicant agrees to abide by all applicable laws, building codes and licensing, and will provide proof of insurance of \$1,000,000 General Liability.
7. Participation is valid for the duration of the programs unless terminated at the discretion of the Companies.
8. The Companies reserve the right to discontinue or change any program at any time.
9. The Companies do not endorse any particular manufacturer, product or system design within these programs.
10. The Companies will not be responsible for any tax liability imposed on the customer as a result of the payment of incentives.
11. The Companies do not expressly or implicitly warrant the performance of installed equipment. (Contact the manufacturer for details regarding equipment warranties.)
12. The Companies are not responsible for the proper disposal/recycling of any waste generated as a result of any project.
13. The acceptance of program agreements is determined solely by the Companies.
14. The Companies are not liable for any damage caused by the installation of the equipment, nor for any damage caused by the malfunction of the installed equipment.

Incentives will only be rewarded for prescriptive energy-saving technologies or pre-approved custom projects providing natural gas savings. Projects that have or will receive funding from other energy efficiency programs available to Illinois businesses will be reviewed on a case-by-case basis for potential partial funding from the Companies. Incentives are not retroactive for previously installed measures prior to program implementation. The Companies' incentive level is capped at \$100,000 per project and may not exceed 50 percent of the total project cost. An incentive exceeding \$5,000 must receive written approval BEFORE project installation. Specific eligibility requirements may apply for each individual program. All eligibility determinations are at the sole discretion of the Companies. The Companies accept no liability for eligibility determinations.

Program offerings are subject to change without notice. Please see Prescriptive or Custom Incentives application for full Terms and Conditions.

This agreement is valid from June 1, 2011 to May 31, 2012.

See Eligibility and Terms & Conditions for full program requirements: www.peoplesgasdelivery.com | www.northshoregasdelivery.com

I have read and agree to the terms and conditions set forth in this agreement. I understand that any violations deemed harmful to program success can result in corrective action.
